

Weekly Activity News March 12th. 2025

The clouds gave the Bocce some relief today with the game over just before the sky cleared.
Attendance was down a bit today presumably members avoiding the heat.

Members are reminded that next week is a General Meeting which should be interesting.

Wednesday 19th March 12:15.

The response from members with info for database regarding emergency contact and DOB has been very good so far and we will be in a much better position to handle incidents etc as this is completed.
