

Bellydance Fusion

Bellydancing is back for 2026. Here's your chance, so come along, join our lovely dancers and start your year with a swish and shimmy! Begin a new choreography and learn some fancy new moves. We do a fusion style of bellydance from different genres using a variety of music. I'm happy to modify moves to accommodate your ability level....it's all about fun, giggles and feeling good about ourselves while getting some great exercise. This class is for secret dance goddesses and all shimmy sisters.
